

# Do you **wish** you could **talk** with **animals**?

Would you believe me if I told you, **you could...** \*sort of!

Whether your pet is the next Einstein or maybe a bit of a 'Tim, nice but dim', **Clicker Training** can help you communicate better with each other.

## Interested?

**Clicking with Canines** would love to help.

We are now offering an **at home Clicker master class**.

### You will learn:

- Why and how clicker training works.
- Clicker mechanics (so neither of you get confused).
- Introducing the clicker to your dog/ cat/chicken/fish... the possibilities are endless.
- We will teach you and your dog a simple trick to impress your friends.
- You'll get a whole host of ideas of things you can learn.

We will leave you  
with 2 clickers  
so you can start  
practising straight  
away.

The cost:

**£30.00 for up to  
two people**

(and your creature  
of choice).

The **session** will last around **1.5 hours**

(but plan for maybe a bit longer as we often get carried away).

WITH

# CLICKING CANINES

Dog training for today's world

Offering **1-2-1 training** in your own home  
for all ages of dogs and owners
